Find out more about our work with colleges throughout the UK

Barnsley College

LOCATION: Barnsley

WORKS UNDERTAKEN: Fixed Wire Testing

SCOPE OF WORK: Located between Sheffield, Leeds and Manchester, Barnsley College is split across 3 campuses. Elecheck undertook testing and inspection of electrical installations for the Construction Centre site which houses a range of heavy equipment and machinery that requires 3-phase circuits that help ensure constant power transfer.

St. John's College

LOCATION: Cambridge

WORKS UNDERTAKEN: Fixed Wire Testing, Portable Appliance Testing and Emergency Lighting

SCOPE OF WORK: Part of the famous Cambridge University, St. John's is one of the oldest and largest colleges in Cambridge. Elecheck have carried out PAT Testing on over 8,500 appliances throughout 170 areas, including outlying student accommodation, since 2009. This is in addition to inspecting over 680 emergency lights and carrying out Fixed Wire Testing for the entire college, all whilst ensuring minimal disruption to staff and students' daily activities.

North Nottinghamshire College

LOCATION: Nottingham

WORKS UNDERTAKEN: *i*PIR Safety Inspection™

SCOPE OF WORK: Elecheck have delivered the unique *i*PIR Safety Inspection™ service to a number of sites operated by the college including Sure Start adult learning centres and the Shireoaks Triangle, an off site provision of the college situated 3 miles from the main site. This service combines full visual inspection with infra-red imaging to assess the condition of electrical installations in line with BS 7671 regulations, without the need for electrical shutdown to minimise disruption.

Keble College

LOCATION: Oxford

WORKS UNDERTAKEN: Fixed Wire Testing and Lightning Protection

SCOPE OF WORK: As one of the largest of the constituent colleges of the University of Oxford, Keble College has over 650 students. As well as Fixed Wire Testing, Elecheck were chosen to provide Lightning Protection inspections and maintenance services to multiple buildings at the college. We then provided remedial work where required to ensure compliance with BS EN 62305 and help protect the site from the dangers of lightning.

Collingwood College

LOCATION: Camberley

WORKS UNDERTAKEN: Portable Appliance Testing

SCOPE OF WORK: Collingwood College has more than 2000 students, including a Sixth Form of well over 450 and some 270 staff. The college also have over 4,500 electrical appliances that require n-service inspection and testing which, since 2010, has been delivered by Elecheck. Appliances are tested throughout the college's ICT suites, common rooms, kitchens and staff rooms are tested during summer holidays to ensure minimal disruption to both staff and students.
