Find out more about our work in universities throughout the UK

University of Edinburgh

DURATION: 2008 - Ongoing

WORKS UNDERTAKEN: Fixed Wire Testing, Fixed Appliance Testing and *i*PIR Safety Inspection™

SCOPE OF WORK: We have carried out Electrical Installation Condition Reports for all of the university buildings situated throughout the city since 2008. This is in addition to providing Fixed Appliance Testing to all cookers within student accommodation sites as well as our unique *i*PIR Safety Inspection™ service to the Centre for Regenerative Medicine, situated within the campus.

University of Greenwich

DURATION: 2010 - Ongoing

WORKS UNDERTAKEN: Fixed Wire Testing and Portable Appliance Testing

SCOPE OF WORK: Back in June 2010, Elecheck successfully secured a tender to provide essential electrical safety testing services to the University of Greenwich. Situated across 3 campuses spreading from Greenwich to Medway, the university has over 28,500 students. The large server rooms that support staff and students required close liaison with IT staff to ensure efficient testing and minimal disruption to staff and residents.

Lancaster University

DURATION: 2010 - Ongoing

WORKS UNDERTAKEN: Fixed Wire Testing and Portable Appliance Testing

SCOPE OF WORK: Having previously worked with the university in 2004, Elecheck have been the selected supplier of Fixed Wire Testing since 2010. Electrical testing and inspection has undertaken throughout the university, from the university boat club to the main library and engineering building. We also provided testing to Infolab, situated on campus, an international Centre of Excellence for research in information and communication technologies.

University of Lincoln

DURATION: 2007 - Ongoing

WORKS UNDERTAKEN: Fixed Wire Testing and Lightning Protection

SCOPE OF WORK: By providing the same lead engineer throughout the duration this 5-year testing programme, covers the entire university, our experience and familiarity with the site and staff ensured that year-on-year, we have provided consistently high standards. Areas such as the Students Union, Kitchen, Gyms and Sports Halls were tested annually in accordance with recommended intervals.

University of Coventry

DURATION: 2009 - 2012

WORKS UNDERTAKEN: Fixed Wire Testing, Electrical Remedial Work, Portable Appliance Testing

SCOPE OF WORK: Catering for almost 19,000 students, the university occupies a purpose-built 33-acre campus in the heart of the city. Since 2009, our specialist team have provided expert electrical safety services to the university, inspecting over 4,000 circuits before undertaking any required remedial works to ensure the university is compliant with the latest regulations and safe.
